Relationships “at Home”

Overview of Functional Relationships

Functional Relationships:

- University Mission and Commitment
- Strategic Plan
- Budget
- On-going Resources

Functional Relationships:

- Work with Dean to implement institutional goals
- Work with faculty in curriculum development, implementation and monitoring; admissions processes
- Implement and monitor program-level policies, procedures & processes
- Establish and maintain relationships with faculty and resource peers to assure program fidelity
- Facilitate curriculum engagement within the universities and faculty development for new technology

Functional Relationships:

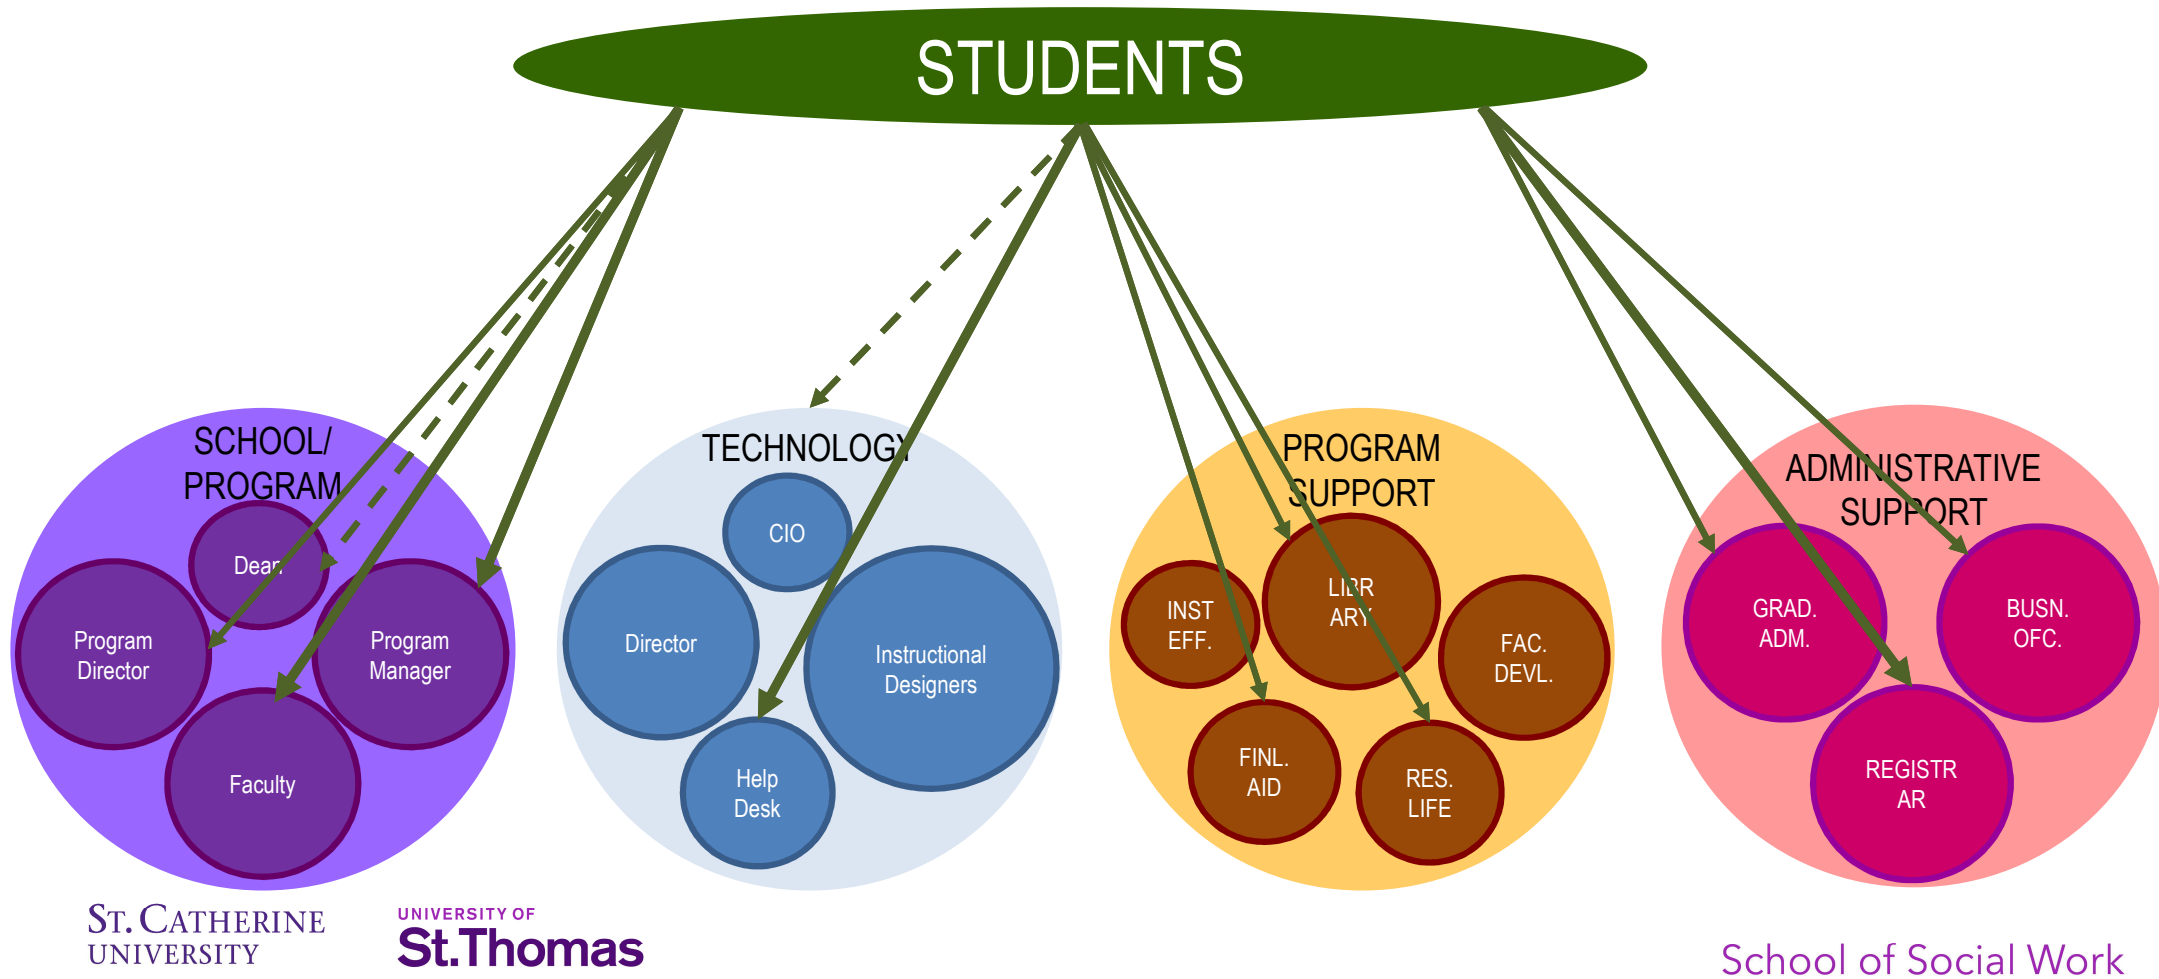

- Create and develop individual courses alongside the Program Director and Instructional Designers
- Work with Library to locate textbooks, articles and links for individual courses
- Deliver courses to students
- Engage with DSW Program Committee - curriculum, student functions: admissions, progress in program, BD advising
- Work with Office of Institutional Effectiveness to ensure relevant course evaluation

Functional Relationships:

- Ensure timely implementation of policies, procedures & processes
- Create and manage multiple student, business & registrar databases
- Establish and maintain relationships with students and systemic resources
- Provide direct support to faculty and students in online delivery environment
- Seek, develop and implement IT-related applications and software for use
- Develop transitional and accessible educational tools for IT implementation

Functional Relationships:

Application Activity

- Choose one of the formats (handouts)
- Identify a program focus
- Identify the relevant relationships-resource pods and relationship lines to represent your experience

.....

Questions?

Please complete the conference evaluation.
